UNIVERS-A AQR

SEWAGE PUMP WITH OPEN ONE OR TWO-CHANNEL IMPELLER

DESCRIPTION

The sewage block pump series UNIVERS-A enables numerous pumping applications for sewage and waste water based on various hydraulic pump systems. This flexibility is also reflected in the variety in diverse motor concepts. This enables adjustment of the overall efficiency of the unit to meet the individual requirements of customers.

Steepest characteristic of the dirty water pumps. Largest allowable grain size for foreign objects. The suction height is reduced compared to all other impellers. Cheap for raw sewage. Suitable for parallel operation.

LOCATION

- › Swimming pool pumps
- › Ship pumps
- › Sewage pumps
- › Industrial pumps
- › Available in USA
- › Available in Canada

MEDIUM

- › Water
- › Raw sewage
- › Long-fiber ingredients
- › Acid or alkali (special)
- › Brine resistance available

FOCUS

- › Compact design
- › Stainless steel available

IMPELLER

- › Radial impeller without cover
- › Wastewater impeller open

MOTOR

- › Reinforced bearing
- › IE5 PM motor available

EQUIPMENT

- › Fibre cutting device
- › Double mechanical seal available

INSTALLATION

- › Tank mounting
- › Process design
- › Vertical installation
- › Horizontal installation

UNIVERS-A AKR

SEWAGE PUMP WITH CLOSED ONE OR TWO-CHANNEL IMPELLER

DESCRIPTION

The sewage block pump series UNIVERS-A enables numerous pumping applications for sewage and waste water based on various hydraulic pump systems. This flexibility is also reflected in the variety in diverse motor concepts. This enables adjustment of the overall efficiency of the unit to meet the individual requirements of customers.

The steepest characteristic curve for the dirty water pumps with a slightly higher efficiency compared to the open impellers. Largest permitted grain size for foreign bodies. Suction height reduced compared to all other wheels. Cheap for raw sewage. Suitable for parallel operation.

LOCATION

- › Swimming pool pumps
- › Ship pumps
- › Sewage pumps
- › Industrial pumps
- › Available in USA
- › Available in Canada

MEDIUM

- › Water
- › Raw sewage
- › Long-fiber ingredients
- › Acid or alkali (special)
- › Brine resistance available

FOCUS

- › Compact design

- › Stainless steel available

IMPELLER

- › Wastewater impeller closed

MOTOR

- › Reinforced bearing
- › IE5 PM motor available

EQUIPMENT

- › Double mechanical seal available

INSTALLATION

- › Tank mounting
- › Process design
- › Vertical installation
- › Horizontal installation

UNIVERS-A AWR

SEWAGE PUMP WITH VORTEX IMPELLER

DESCRIPTION

The sewage block pump series UNIVERS-A enables numerous pumping applications for sewage and waste water based on various hydraulic pump systems. This flexibility is also reflected in the variety in diverse motor concepts. This enables adjustment of the overall efficiency of the unit to meet the individual requirements of customers.

Flat characteristic and smooth running, even at high head. Well suited for wastewater. Not suitable for parallel operation.

LOCATION

- › Swimming pool pumps
- › Ship pumps
- › Sewage pumps
- › Industrial pumps
- › Available in USA
- › Available in Canada

MEDIUM

- › Water
- › Raw sewage
- › Long-fiber ingredients
- › Acid or alkali (special)
- › Brine resistance available

FOCUS

- › Compact design
- › Stainless steel available

IMPELLER

- › Radial impeller without cover
- › Vortex impeller 4 - 6 blades

MOTOR

- › Reinforced bearing
- › IE5 PM motor available

EQUIPMENT

- › Double mechanical seal available

INSTALLATION

- › Tank mounting
- › Process design
- › Vertical installation
- › Horizontal installation

UNIVERS-A ASG

RUBBERIZED CLOSE COUPLED SEWAGE PUMP

DESCRIPTION

Pumps of the UNIVERS-A-SG series can handle sand, grit or any other abrasive sediments in the medium. The internal lining with a special rubber coating prevents the cast wearing parts and guarantees a long service life. The pump is a prime example of how we contribute to reduced life cycle costs (LCC) by means of intelligent pump design.

LOCATION

- > Sewage pumps
- > Industrial pumps
- > Available in USA
- > Available in Canada

MEDIUM

- > Water
- > Raw sewage
- > Long-fiber ingredients
- > Acid or alkali (special)
- > Brine resistance available

FOCUS

- > Compact design
- > Stainless steel available

IMPELLER

- > Radial impeller without

cover

- > Vortex impeller 4 - 6 blades

MOTOR

- > Reinforced bearing
- > IE5 PM motor available

EQUIPMENT

- > Double mechanical seal available

SURFACE

- > Wear-resistant rubber coating

INSTALLATION

- > Tank mounting
- > Process design
- > Vertical installation
- > Horizontal installation

UNIVERS-A AYR

SEWAGE PUMP WITH OPEN HELICAL IMPELLER

DESCRIPTION

This space- and energy-saving block pump for high flow rates is suitable for different (water) applications.

LOCATION

- > Swimming pool pumps
- > Ship pumps
- > Sewage pumps
- > Industrial pumps
- > Available in USA
- > Available in Canada

MEDIUM

- > Water
- > Acid or alkali (special)
- > Brine resistance available

FOCUS

- > Compact design
- > Stainless steel available

IMPELLER

- > Radial impeller without cover
- > Half-axial wheel (helical gear)

MOTOR

- > Reinforced bearing
- > IE5 PM motor available

EQUIPMENT

- > Double mechanical seal available

INSTALLATION

- > Tank mounting
- > Process design
- > Vertical installation
- > Horizontal installation
